

TOXICOLOGY (PHD)

Overview

Our graduate program in toxicology has a national and international reputation for quality. Known for our preparation in the areas of molecular toxicology, cancer biology and pharmacology, neurotoxicology and immunotoxicology, we're here to train you for a successful research career. Our objective in this program is clear: educate pre-doctoral students to develop independent research careers in molecular and environmental toxicology. Upon completion of the toxicology graduate program, our students receive PhD degrees in toxicology and utilize their training in academia, industry or government.
