

BIOENGINEERING, PHD

Introduction

The PhD is offered to students with an undergraduate or master's degree in engineering or the life sciences. Students complete the degree in three to five years with a highly individualized training pathway. All PhD students complete a dissertation, which may have an industry component.

Visit our website- ucdenver.edu/bioengineering (<http://www.ucdenver.edu/bioengineering/>) or contact us at bioengineering@cuanschutz.edu for more information.

Graduate Education Policies and Procedures apply to this program.

Program Requirements

The PhD in bioengineering requires 21 credits of didactic coursework, 30 credits of research coursework, and 9 credits of electives.

- 6 credits of life sciences core
- 6 credits of quantitative core
- 6 credits of technology core
- 3 credits of research and clinical core
- 9 credits of electives
- 30 credits of research
