

ONLINE TEACHING AND LEARNING CERTIFICATE

Introduction

CU Denver's Online Teaching and Learning certificate focuses on effective online & hybrid learning designs, high impact practices, and modern learners; with distinct themes of instructional design, inclusive pedagogies, active learning, and emerging pedagogies.

Program Requirements

Through these courses you will participate in a learning community that stresses inclusive values, social learning, open sharing, and knowledge construction. You will learn about emerging trends and issues and relevant research and best practices, and use a variety of digital media platforms and development tools. The course assignments focus on solving professional problems of practice in your own school and organizational settings.

It's recommended you complete the three required courses in the following order because they build on each other: INTE 5200, INTE 5250, and INTE 5670. You may take the elective course at any time, including concurrently with one of the required courses. If you start the program in Summer or Fall, please enroll in INTE 5200 as your first course in the certificate. If you start the program in Spring, please contact your Faculty Advisor to create a plan of action for your certificate program completion.

Code	Title	Hours
Required Courses
