CU Denver, in cooperation with MSU Denver and CU Boulder, offer Army ROTC courses for CU Denver degree-seeking students only.

Army ROTC faculty members are members of the CU Denver faculty ranks. Courses are listed on the CU Denver transcript with the "ARMY" subject code and affect the student's GPA.

The Army ROTC Program is administered at the MSU Denver campus, where students receive support for military-required documents and orders. Please see the most recent MSU Denver catalog for more information on the Military Science (Army ROTC) program.
