

INFORMATION SYSTEMS MINOR

Introduction

Please click here (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/business-school/>) to see Business School information.

The Information Systems Minor provides students with an understanding of the technologies that organizations utilize to drive business decisions and gain a competitive advantage. In depth coverage of spreadsheet tools, business intelligence systems and database systems provides students with the skills necessary to solve problems in a variety of contexts.

Students wishing to complete the Information Systems minor need to complete the course work described under the Degree Requirements tab.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- As a CU Denver undergraduate student, you need a 2.0 GPA to be accepted for an Information Systems minor.

General Requirements

Students must satisfy all requirements outlined below and by the department offering the minor.

- Click here (<http://catalog.ucdenver.edu/cu-denver/undergraduate/academic-policies-procedures/>) for information about Academic Policies

Program Requirements

1. Students must maintain or exceed a 2.0 GPA to graduate with the minor.
2. A student must take 12 of the 15 hours of required business courses in the minor while in residence at the University of Colorado Denver. If a student has already taken the equivalent of one or more of these courses at another university, other higher-level business courses may be substituted with the approval of the Business School.
3. Students must have declared the Information Systems minor to register for any of the upper-division Business School courses or petition separately to take each of these courses.
