HUMAN-CENTERED DESIGN AND INNOVATION UNDERGRADUATE CERTIFICATE

Introduction

Providing a basic understanding of design and innovation processes, the undergraduate certificate in Human-Centered Design and Innovation will prepare you to contribute to interdisciplinary teams that seek to address complex human problems.

Please contact your undergraduate advisor about adding the undergraduate Human-Centered Design and Innovation certificate or email us at inworks@ucdenver.edu for more information.

Certificate Eligibility

Any CU Denver undergraduate student, degree or non-degree seeking, is eligible to earn the certificate in Human-Centered Design and Innovation.

Students planning to pursue a Human-Centered Design and Innovation certificate should complete a certificate declaration form and obtain approval from an Inworks advisor.

Certificate Requirements

The following classes must be completed with a grade of C- or better.

Code	Title	Hours
IWKS 2100	Human-Centered Design, Innovation and Prototyping [1]	3
Two additional IWKS courses		6
Total Hours		**9**

[1] This requirement may be satisfied by an equivalent or cross-listed course.
